### Featured Article: PBI Dashboard

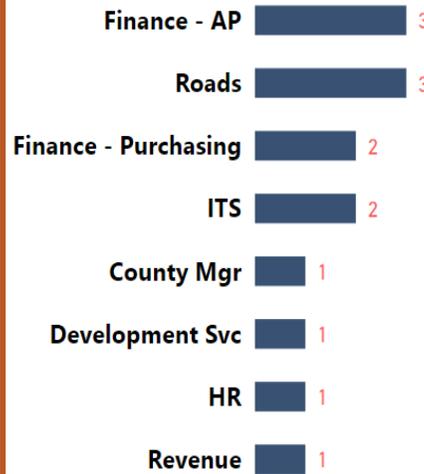

**Power BI** Dashboard consist of visuals that provide different, quick, at-a-glance views and insights about the data. It highlights key performance areas relevant to the data.

### Success Story -

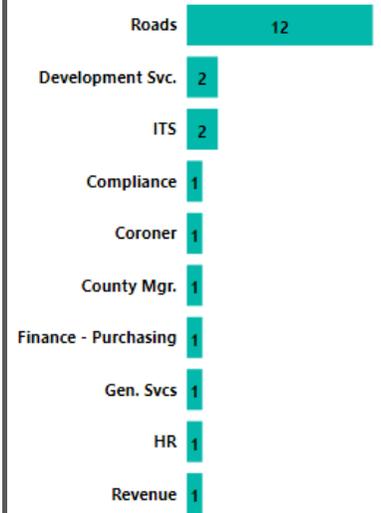

"Power BI reporting tool has made it easier to interactively review and analyze several thousand accounts each day, spot anomalies in transaction histories, reduce the effort required to perform audits, and allow us to identify and collect more revenue. While testing the current Power BI Report solution, we discovered 12 businesses that all together will bring in a revenue of about \$100,000, and we sent them a bill. This is great result even before the current report goes LIVE! This tool is very valuable to us. Thank you BI Team!" - Eric Pruitt, Deputy Director, Revenue
